

Environmental Sustainability Education

Join Project SEA: Science, Education, & Action

Project SEA is TCNJ faculty led teacher professional development and research on how teachers learn about and integrate climate change and marine science across the curriculum. **ALL K-8 teachers** and **preservice teachers** in New Jersey are eligible.

Teachers participate in three (3) 3 hour PD activities, take two surveys and a reflection on teaching. Teachers will receive certificate for ten (10) hours of PD and a total of **\$200 in gift cards** after the completion of the research components of this project.

When: Tuesdays/4:30-7:30 PM April 27 - May 4, and 11

Where: Save Barnegat Bay's EcoCenter and TCNJ Ewing Campus

To learn more or sign up to participate in these workshops, please [fill out this form](#).
